The security safeguards written into the hearing phase seem OK. Discovery procedures, with their own sanitization problems, do not seem to be part of the hearing process. I'm assuming there is a separate regulation governing proprietary activities, and there is no need for some sort of exclusionary clause to separate the two areas.

1.	<i>Cops</i>	<i>7/13</i>	<i>7/13</i>	Draft A, staffed June 1981, caused OS concern for access to and control of classified information when a former employee is involved in disciplinary hearings (Attachments A & B). Draft B appears to address these concerns (pages 27 and 28, underlined portions). For review and comment by 20 July 1982.
